

My hamster Nibells

One day when I was 10 my dad got me

a hamster. And he was very small and then we

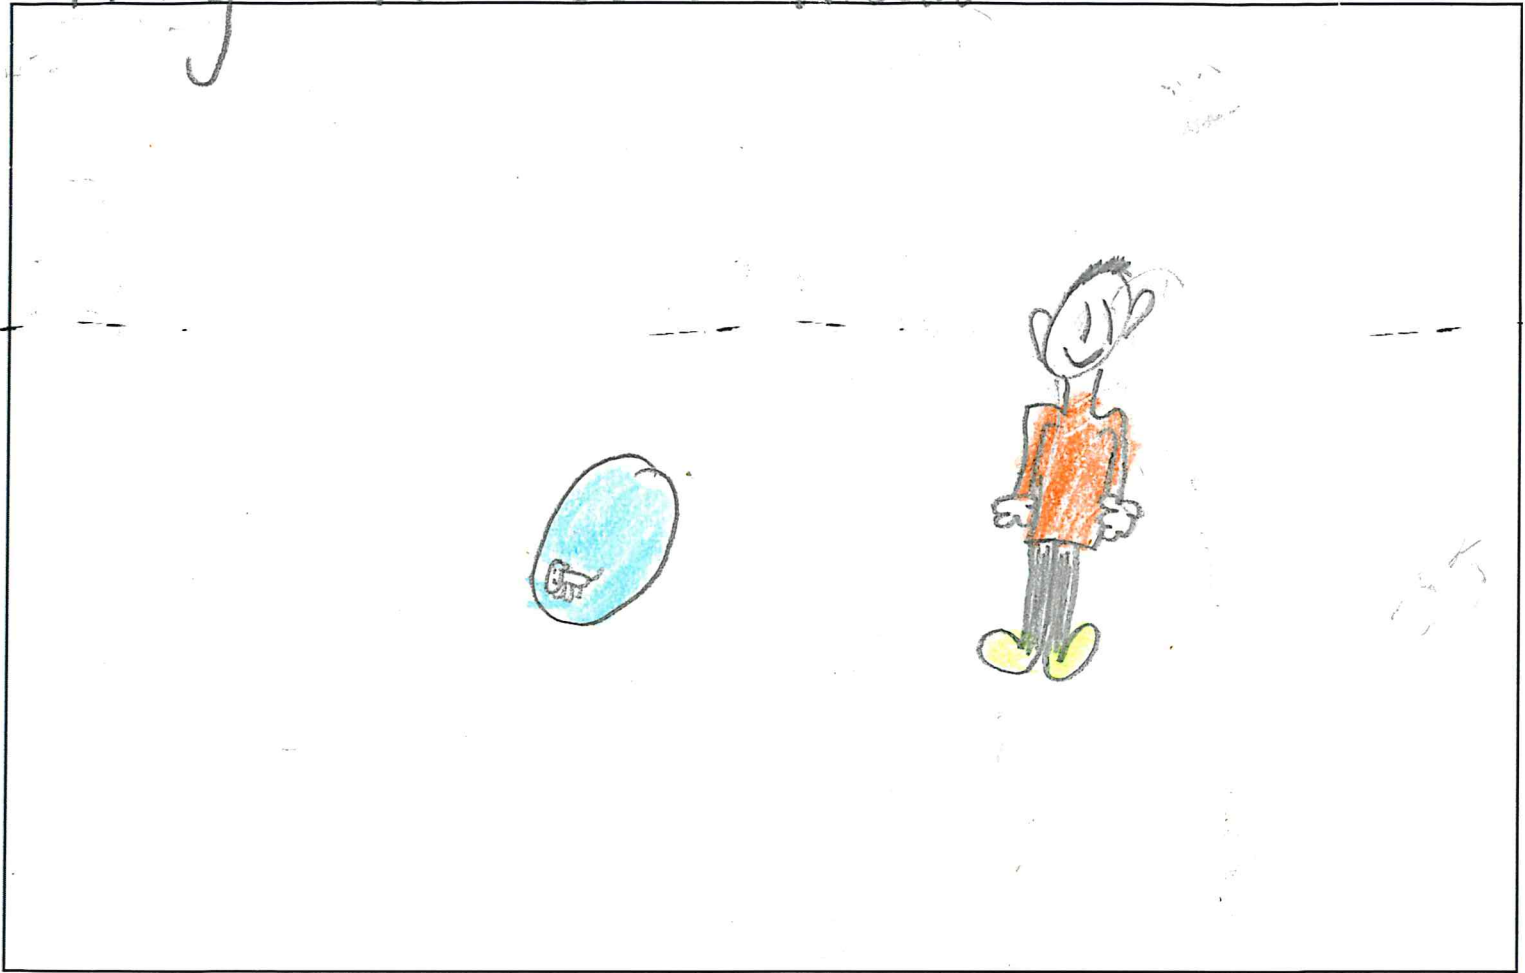

got a cage FOR him and the cage was made

out of tunnels and the cage had a hamster

wheel in it and in one of the holes there

was a waterer

My hamster Nibells

and he had a house in his

cage and we got him a ball

that he could go into and every

day before school I let Nibells

out of his cage into my hands
